PROFESSIONAL SUMMARY

Highly motivated and detail-oriented aspiring Software Developer with strong foundational knowledge in **front-end** and **back-end development**. Passionate about building **efficient, scalable, and user-friendly applications** while continuously learning modern technologies and industry best practices. Known for strong problem-solving abilities, adaptability, and a proactive approach to learning new tools and frameworks. Eager to contribute technical skills, creativity, and dedication to a dynamic development team while growing as a professional in the software development field.

TECHNICAL SKILLS

- **Language:** HTML, CSS, Python, JavaScript, SQL
 - **Specialized Tech:** Agentic AI, Data Science, Generative AI
 - **Web & App:** Responsive Web Design, UI/UX Design, Figma, Basic Android Development, Database Management
 - **Security:** Cyber Security (Threat Detection & Defense)
-

WORK EXPERIENCE

Cyber Security Intern | Gujarat Technological University (GTU) | Jan 2026 - Present (12-Week Program) | Ahmadabad

- Developing "**CyberShield**," a web platform focused on learning, detecting, and defending against digital threats.
- Building a **browser extension** titled "Think before you click" to enhance user safety during web navigation.

Front-End Web Development Intern | IBM | July 2025

- Completed an intensive summer program focused on building responsive, user-centric web interfaces.
- Developed "**Fashion Wear**," a 7th-semester internship project showcasing modern UI/UX principles.

Micro-Intern (Data Science & Generative AI) | IBM SkillsBuild Feb 2024 - March 2024

- Gained practical exposure to **Data Analysis** and the implementation of **Generative AI** models.

FRONT-END DEVELOPMENT & UI/UX INTERN | Exactable | May26-August26 | Daman

- Designed and developed **responsive, modern web interfaces** with a strong focus on UI/UX and visual consistency.
 - Created **user-friendly layouts, interactive components, and responsive designs** based on project requirements.
 - Worked with HTML, CSS, JavaScript, React/Next.js, Tailwind CSS and modern UI libraries to build polished web experiences.
 - Collaborated with **clients and team members to understand requirements** and refine designs based on feedback.
-

PROJECTS

- **Audio-to-Image Converter:** Developed during 3rd year of Engineering; utilizes AI principles to translate auditory data into visual representations.
- **Blood & Organ Management System:** Created a functional application for tracking and managing critical medical resources.
- **Library Management System:** Designed and deployed a full-scale website for digital resource tracking during Diploma studies.

- **Opula — Jewellery E-commerce Website:** Designed and developed a premium, responsive jewellery website with a strong focus on UI/UX and visual aesthetics. Created layouts, product sections, banners, and interactive elements using Figma and modern frontend technologies.

EDUCATION

- **Bachelor of Engineering (Computer Engineering)** | Government Engineering College, Daman 2023 – 2026
- **Diploma in Computer Science** | Government Polytechnic, Daman | 2020 – 2023

PERSONAL DEVELOPMENT

- **Continuous Learning:** Actively researching **Agentic AI** and Tech Innovation.
- **Soft Skills:** Collaborative team player with strong logical thinking and tech research capabilities
